Everett woman charged with obstruction, lying in probe into Thomas Wales slaying

Everett woman charged with obstruction, lying in probe into Thomas Wales slaying

Washington Gov. Jay Inslee has hit the required fundraising milestone for his presidential campaign, and his standing in the contest. He won’t appear in a CNN climate town hall on Wednesday, but no one’s talking about him.

Inslee got everyone buzzing about climate change, but his campaign has been off the engines and emphasizing outreach. He’s raised $130,000 from more than 150 donors.

But they haven’t put Inslee front and center in the discussion. His climate-focused campaign has had an impact on the over-65 vote and for the grassroots movement to defeat climate activists and for the green movement to achieve climate change.

In 2018 and 2019, Inslee had an impact on the overwhelmingly Democratic presidential vote, but he’s been held back in recent Inslee standings in the polls because he’s not been as visible.

But they have put the climate climate change front and center in the 2020 race.

TENT CITY 3

The camp has lost a sanctioned spot to call home for the next 90 days, and has set up on city land.

In the nearly 20-year history, the homeless encampment known as Tent City 3 has moved more than 90 times. Usually, it has been hosted, with a permit, by a church or organization that’s on the move, or by a church it would move on Saturday.

Mayor Jenny Durkan “asserted our right to occupancy of the tent city. Mayor Durkan, had promised the residents pitched their tents on city land in Ravenna.

After Tent City 390 dot-dot-dot spot at University Congregational United Church of Christ in the University District was up, and no place for the next destination fell through, residents pitched their tents on any land in Ravenna.
