I am the owner of Gymnastics Unlimited, located in the City of Federal Way, Washington. I have been coaching gymnastics since 1980. Glenn Whitworth had been employed by me for approximately 1-2 years. He was a part time coach. I would only let him coach a certain level of Kids, 8 to 12 year olds, all girls. My school has approximately 250 students, both male and female, predominantly female. While Glenn was employed by me, I learned not to trust him. He would use inappropriate language around children. Some gymnast had told their parents that Glenn had told them that he felt very good today because he had sex last night. After learning this, I fired Glenn. I later rehired him for a couple of months and found that he had been putting down false information on his time sheets. I again terminated him. ZZM
