

MEMORANDUM FOR RECORD

6/15/2003 2259 HOURS

CPT JASON B. ORLICH
JDOG S-2, SECURITY MANAGER
JTF GTMO, GUANTANAMO BAY, CUBA
660-3108 (DSN)

On Saturday, at approximately 1445 hours, Chaplain Yee was inside of building 8 using CPT Hashim's computer. He often comes inside of the limited access building to speak with CPT Hashim. Chaplain Yee has knowledge of the code to the building even though the code has been changed twice. It is unknown who provided the codes.

One of my CI personnel, SPC Victor Wheeler, informed me that Chaplain Yee had asked him to get some information from the Detainee Information Management Systems (DIMS). Chaplain Yee has inserted himself in areas outside of a Chaplain's lane, i.e, the intelligence cycle, interrogations, prayer for detainees on the blocks, etc. He has also attended numerous intelligence briefings for the Joint Detention Operations Group S-2 and the Joint Interrogation Group Intelligence Overview briefings. Attendees at these briefings are based on a need to know only.

After leaving the building, Chaplain Yee walked over to Building 7 (CP2) and wanted to get into the Detainee Information Management System (DIMS) again. He spoke with 2LT Shaw T. Locke from the 303rd Military Police and attempted to get into the system once again. I advised 2LT Locke not to allow the Chaplain access to the system since he didn't have a need to know. 2LT Locke then told me that there had been some conflicts with the Chaplain and the MP's on the blocks previously.
